

KHUSHI LORISH

AI/ML ENGINEER

Meerut, Uttar Pradesh

| 91+ 7302699173

| lorishkhushi@gmail.com

PROFILE SUMMARY

B.Tech student passionate about Artificial Intelligence and Machine Learning with hands-on experience in developing ML models, data preprocessing, and Python programming. Familiar with machine learning algorithms, data analysis, model evaluation, and AI project development. Eager to apply technical skills and contribute to real-world AI solutions while learning from industry professionals.

PROJECT

House Price Prediction System

- Built a FasAPI to predict house prices using regression techniques.
- Performed data cleaning, preprocessing, and feature engineering.
- Evaluated model performance using MAE, RMSE, and R^2 metrics.
- Technologies: Python, Pandas, NumPy, Scikit-learn, FastAPI.

Titanic-EDA

- Performed data cleaning, preprocessing, and exploratory data analysis
- Identified key survival factors through statistical analysis and data visualization.
- Created interactive visualizations using Pandas, Matplotlib, and Seaborn.
- Derived insights from passenger demographics, ticket class, fare, and family relationships.

EDUCATION

Bachelor's of Technology

Meerut Institute of Engineering and Technology 2028

SKILLS

Programming: Python, Java

Machine Learning: Supervised Learning, Unsupervised Learning, Classification, Regression

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Tools: Jupyter Notebook, Git, GitHub, VS Code

Data Handling: Data Cleaning, Data Preprocessing, Feature Engineering

Other: Model Evaluation, Data Visualization, Problem Solving
